CZ 4M OMEGA UBACS

TACTICAL T-SHIRT

The CZ 4M OMEGA tactical T-shirt is designed for wearing under a ballistic vest.

The Heavy Duty (HD) material combines the strength and durability of polyamide fibres (PAD) with a ripstop mesh and the best cotton yarn, which is soft and comfortable for most conditions in which it is expected to be used. The main advantage of the HD material is high resistance to mechanical damage, including protection against cuts by sharp objects or thorns of, providing the highest degree of protection in all types of operations.

The Light Season (LS) material is made of a combination of polyester fibres (PES) with a ripstop mesh and the best cotton yarn, which is soft and comfortable for most conditions under which it is expected to be used. The LS material combines high breathability and strength, which makes it suitable for warm weather conditions, etc. The material is provided with special TEFLON® treatment bound to the fibres, which ensures long-term resistance to water, oils, etc.

1. Collar with a microfleece zone
2. Double-access sleeve pockets
3. FAC pockets
4. FR Functional material OUTLAST®
